Diversity Unit

Skills and functions

To coordinate and include in a cross-cutting manner the development of university policies of inclusion and anti-discrimination in the set of activities and functions of the university.

Promote inclusion and non-discrimination plans for the entire university community on the grounds of disability.

Develop protocols and implement prevention and response measures against violence, workplace harassment or discrimination based on disability and/or dysphobia.

To ensure the recognition of diversity and universal accessibility, promoting reasonable adjustments for an inclusive and accessible university.

To offer a disability support service to the university community and, in coordination with the Student Support and Assistance Service , to adopt positive action measures so that students with disabilities can enjoy an inclusive, accessible and adaptable university education.

To facilitate the use of sign languages ??by users when needed.

Promote access to university studies for people with intellectual disabilities and other disabilities by fostering activities and actions adapted to their abilities.
