

JAEN APPROXIMATION PROJECT

The Jaen Approximation Project aims to contribute to the development in approximation theory by encouraging the exchange of ideas through the interaction among researchers in the area, becoming Jaén a meeting-point in approximation theory. The Jaen Approximation Project seeks quality and wishes that the participants feel part of the project.

The Jaen Journal on Approximation is part of the Jaen Approximation Project. The Jaen Approximation Project would like to express its sincerest gratitude to so many outstanding researchers that contribute as editors, authors and referees in the Jaen Journal on Approximation.

Also it would like to express its gratitude to all the different people and institutions that have supported the project, specially the Diputación Provincial de Jaén. Thanks to them, in the first years we have focused on making the journal better known, sending thousands of copies to researchers all over the world in what may be an unprecedented effort.

Thanks to researchers and supporters the Jaen Journal on Approximation is now well known and it is able to invite to contribute to all researchers on approximation theory and its applications in their broadest sense.

Authors and referees will get discounts in the activities of the Jaen Approximation Project and they will be granted with online access (IP address) during a year to the Jaen Journal on Approximation.

Also Institutions will be granted with online access (institutional IP range) during a year to the journal when a member publishes a paper in the Jaen Journal on Approximation.

If authors are committed with their institutions to include their papers in eventual institutional repositories, then the Jaen Journal on Approximation will provide copies with this purpose.

Members of customer institutions of the Jaen Journal on Approximation will get special discounts in the activities of the Jaen Approximation Project.

In the next years, we will need the help of universities and research centers. We think that if many institutions subscribe, we will be able to offer a quality journal at a reduced price, and be able to support the researchers (editors, authors and referees), the true creators of any publications.

We think that authors should get fast and good quality reports on their work which really help to improve, and where applicable, see it published quickly. If we have the help of institutions, we can focus on supporting authors and referees as a means of increasing the quality of the published articles and as fair recognition of their work.

V JAEN CONFERENCE ON APPROXIMATION

ÚBEDA, SPAIN, JUNE 22ND-27TH, 2014

DEDICATED TO THE FIFTH ANNIVERSARY OF THE JAEN JOURNAL ON
APPROXIMATION

In addition to the journal, an international meeting, known for short as Ubeda Meeting, was organized annually since 2000 till 2009. The participation in the Ubeda Meeting was by invitation and limited to 30/40 people, making it as fruitful as possible. During 4/5 days, participants could attend around 30 lectures, exchange ideas, taste different and nice foods, visit singular places as Castles, renaissance Palaces and World Heritage Sites, enjoy Flamenco shows, etc. Discussions during meals, walks, and visits provided opportunities to exchange ideas.

After ten editions of the Ubeda Meeting, a new activity was launched: The Jaen Conference on Approximation, Computer Aided geometric Design, Numerical Methods and Applications. There the participation is not only by invitation, more on the contrary all researchers in approximation theory in its broadest sense are welcome. Four editions of this conference have already been organized.

The fifth edition of the Jaen Conference on Approximation will be hold, as usual, in Úbeda, a world Heritage Site, in the period June 22nd-27th, 2014.

In this occasion, it will be dedicated to commemorate the fifth anniversary of the Jaen Journal on Approximation. It will thank the collaboration of researchers, editors, authors, referees and subscribers. All of them will obtain special prices for conference fees, local expenses or accompanying people.

Dear researcher, we are looking forward to seeing you in Úbeda.

CONFERENCE ON APPROXIMATION

Úbeda, Spain, June 22nd-27th, 2014

**Approximation Theory
Computer Aided Geometric Design
Numerical Methods and Applications**

**Dedicated to the
fifth anniversary
of the Jaen
Journal on
Approximation**
