Pre-announcement Erasmus Staff week 2018

2018 Staff Week

The Dynamics of Talent Development

Dear Erasmus partners

We are happy to announce that Hanze University of Applied Sciences, Groningen will once again organize a comprehensive one-week training programme for colleagues of our partner institutions in the framework of Erasmus+ staff mobility for training.

The programme is scheduled from **15-19 October 2018** and will start on Monday morning and will end after dinner on Thursday. On Friday, you will have the possibility to schedule your personal meetings with colleagues and students at Hanze UAS.

Please forward this mail to those colleagues whom you think might be interested.

Theme of the programme

The theme of this year's programme is: **The Dynamics of Talent Development**. With a wide range of [honours programmes](#), research, and activities, Hanze Honours College and Honours Research Center of Hanze UAS challenge talented and ambitious students to become excellent professionals. Honours programmes offer motivated students opportunities to take initiative and to create innovative and sustainable solutions for complex real life issues. Therefore Hanze honours programmes provide open, multidisciplinary settings where students, lecturers and external professionals together form learning communities.

With innovative didactics, teaching strategies and research these learning communities create a dynamic environment for students, teachers, researchers, staff and management.

What will we focus on?

During this week, honours students, teachers, researchers and staff would like to share their knowledge and experience with you. We would also like to learn from you on issues like talent development, learning communities, innovation in higher education and human resources policy.

We plan to organize interactive sessions in which you can experience the principles and impact of our honours programmes. Topics we intent to discuss are:

- A variety of honours student projects
- Organization and HR aspects of talent education
- Erasmus+ project Co-Talent: European cooperation on talent development, first results
- Regional cooperation on talent development
- Design, organization and implementation of Innovation Labs and learning communities
- City of Talents and City Labs
- Excursion to Remembrance Center Camp Westerbork (Honours Innovation Lab)

In the programme we offer you a variety of settings and places, with time to socialize with your colleagues, at several Hanze locations as well as in the beautiful City of Talent Groningen.

Who should participate?

The programme targets university employees who are active in the field of education design and innovation, policy, planning, tutorship, talent scouting or research on (higher) education. You could be working in the field of policy making and counselling, planning, curriculum development, research, tutoring or student affairs. You are all more than welcome.

Participants are expected to finance their own travel, accommodation and other expenses through the Erasmus+ programme. There are no participation fees.

If you are interested and you intend to participate in this week, please send an e-mail to erasmusstaffweek@org.hanze.nl before **1 June 2018**. This unofficial pre-registration will help us to get an idea of the amount of interest in this week.

Planning

Mid June 2018 Provisional programme will be available

Mid June 2018 Official registration will open

21 August 2018 Deadline for official registration

29 August 2018 Participants will be notified of acceptance for the programme

We are looking forward to welcoming you in Groningen in October!

Kind regards,

Els van der Werf

Erasmus+ Institutional Coordinator
