# Charla "Biomedical and Clinical Natural Language Processing at CLiPS"

04/11/2019

Walter Daelemans
Temática
Investigación

**Hora:** 12:30h

**Lugar:** Salón de grados verde del edificio C1

**Fecha Actividad:** Mié, 13/11/2019

**Impartida por:** Walter Daelemans

**Descripción:** Walter Daelemans is professor of Computational Linguistics at the University of Antwerp where he directs the CLiPS computational linguistics research group. His research interests are in machine learning of natural language, for example in the development of Memory-Based Language Processing (CUP, 2005); computational psycholinguistics, especially exemplar based alternatives to mental rules as representations explaining language acquisition and processing; computational stylometry, with a focus on authorship attribution and author profiling from text; and language technology applications, for example biomedical information extraction and cybersecurity systems for social networks.
