Cookies policy

What are cookies?

This website uses cookies and / or similar technologies that store and retrieve information when you browse. In general, these technologies can serve very diverse purposes, such as, for example, recognizing you as a user, obtaining information about your browsing habits, or customizing the way the content is displayed.

Types of cookies

Below is a classification of the different types of cookies:

Types of cookies according to the entity that manages them:

1. Own cookies: are those that are sent to the user's terminal equipment from a computer or domain managed by the editor itself and from which the service requested by the user is provided.
2. Third-party cookies: are those that are sent to the user's terminal equipment from a computer or domain that is not managed by the editor, but by another entity that processes the data obtained through cookies.

Types of cookies according to their purpose:

1. Technical cookies: are those that allow the user to navigate through a web page, platform or application and use the different options or services that exist in it, including those that the editor uses to allow the management and operation of the website and enable its functions and services, such as, for example, controlling traffic and data communication, identifying the session, accessing restricted access parts, remembering the elements that make up an order, carrying out the process of purchasing an order, manage payment, control fraud linked to the security of the service, make the request for registration or participation in an event, count visits for the purposes of billing the licenses of the software with which the service works (website, platform or application), use security elements while browsing, store content for broadcasting videos or sound, enable dynamic content (for example, animation of loading a text or image) or share content through social networks. Also belonging to this category, due to their technical nature, are those cookies that allow the management, in the most efficient way possible, of the advertising spaces that, as one more element of design or "layout" of the service offered to the user, the editor has included in a web page, application or platform based on criteria such as edited content, without information being collected from users for different purposes, such as customizing that advertising content or other content.
2. Preference or customization cookies: they are those that allow the user to remember information so that the user accesses the service with certain characteristics that can differentiate their experience from that of other users, such as, for example, the language, the number of results to be displayed when the user performs a search, the appearance or content of the service depending on the type of browser through which the user accesses the service or the region from which he accesses the service, etc.
3. Analysis or measurement cookies: these are those that allow the person responsible for them to monitor and analyze the behavior of the users of the websites to which they are linked, including the quantification of the impacts of the advertisements. The information collected through this type of cookie is used to measure the activity of the websites, application or platform, in order to introduce improvements based on the analysis of the usage data made by the users of the service.

4. Behavioral advertising cookies: these are those that store information on the behavior of users obtained through the continuous observation of their browsing habits, which allows the development of a specific profile to display advertising based on it.

Types of cookies according to the period of time they remain activated:

1. Session cookies: are those designed to collect and store data while the user accesses a web page. They are usually used to store information that is only interested in keeping for the provision of the service requested by the user on a single occasion (for example, a list of products purchased) and disappear at the end of the session.
2. Persistent cookies: are those in which the data is still stored in the terminal and can be accessed and processed during a period defined by the person responsible for the cookie, which can range from a few minutes to several years.

The specific uses we make of these technologies are described below.

What types of cookies are used on this website?

This website uses the following cookies:

Own cookies

Own cookies site www.ujaen.es

Cookie	Editor	Purpose	How long cookies remain active
cookieconsent_status	Universidad de Jáen	Technical cookie that allows knowing if the Cookie Notice has been shown to the user.	1 year

Third party cookies

Third party cookies site www.ujaen.es

Cookie	Editor	Purpose	How long cookies remain active
_ga	Google	Analysis cookie created by the Google Analytics tool. It is used to quantify the number of users, perform measurement and statistical analysis.	2 years
_gid	Google	Analysis cookie created by the Google Analytics tool. It is used to quantify the number of users, perform measurement and statistical analysis.	24 hours
_gat	Google	Analysis cookie created by the Google Analytics tool. It is used to quantify the number of users, perform measurement and statistical analysis.	1 minute
_rspkrLoadCore	ReadSpeaker	Cookie created by the ReadSpeaker text-to-speech tool. It is used to save user preferences. For example, constant highlighting of words, reading speed, etc.	Persistent

Legality of the treatment

The legal basis of the treatment is your consent (free, specific, informed and unequivocal). You can revoke your consent, follow the instructions in the next section.

How to accept, deny, revoke consent or delete cookies

You can allow or block cookies, as well as delete your browsing data (including cookies) from the browser you use. Consult the options and instructions offered by your browser for this. Keep in mind that, if you accept third-party cookies, you must delete them from the browser options.

- Firefox
- Chrome
- Microsoft Explorer
- Microsoft Edge
- Safari
- Opera
- Other browsers: check the documentation for the browser you have installed.

International data transfers

Own Cookies

No international transfers: the information stored will not imply an international transfer

Third party cookies

You can find out about transfers to third countries that, where appropriate, are made by the third parties identified in this cookie policy in their corresponding policies (see the links provided in the "Third Party Cookies" section).

Automated profiling with legal effects

In the event that, with cookies, we perform automated profile analysis and that may produce legal effects, such information will be detailed in the Privacy Policy.

Other information required by art. 13 of the GDPR

As part of the duty of information required by art. 13 of the RGPD, we refer you to the Privacy Policy to inform you of:

1. the identity and contact details of the person in charge and, where appropriate, of his representative;
2. the contact details of the data protection officer, if applicable;
3. the existence of the right to request the data controller access to the personal data related to the interested party, and its rectification or deletion, or the limitation of its treatment, or to oppose the treatment, as well as the right to data portability ;
4. the right to file a claim with a supervisory authority;

5. the existence of automated decisions, including profiling, referred to in article 22, paragraphs 1 and 4, and, at least in such cases, significant information on the logic applied, as well as the importance and expected consequences of said treatment for the interested party.
