Complementary Elements

Background

Fondo Complementario

The use of the following background as a graphic corporative complement is allowed in the realization of any type of adaptation of the brand with the purpose of adorning the design of the brand itself, taking the constant motif that corresponds to the isotype of the mark. It may be sectioned if necessary, always taking into account the design grid.

UJA.es

UJA.es

This complementary element has been designed in order to escort the administrative, academic and institutional communications of the University of Jaén. It shows the web address of the University of Jaén in which the institution's informations is stored.
