

25 Anniversary

USE

The 25 Anniversary Corporate Identity Manual of the University of Jaén, is a collection of rules of use that aims to be strict and at the same time, easy to follow, complex because of their thoroughness but simple because of their lack of ambiguity; restrictive with the exception yet, but foreseeable of a wide casuistry, taking into account the diversity of media (official writings, publications, propaganda, audiovisuals), supports (paper, vehicles, products, signs...), and techniques (printing, serigraphy, signage...) in which the pieces described in it will have to be reproduced.
