Call for proposals from the Vice-Rectorate for Equality, Diversity and Social Responsibility for projects related to equality

Fourteen projects have been awarded, aligned with the following strategic axes:

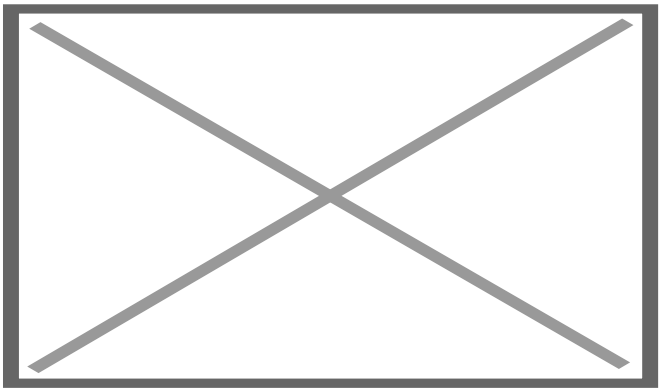

1. Promoting STEM scientific vocations in girls and/or women.

2. Actions that promote the mainstreaming of gender in teaching and/or research.

3. Collaborative and/or transfer actions in matters of equality with non-university education centers and other communities in the province.

4. Actions aimed at reducing the gender gap in university staff, paying special attention to professional advancement.

Of these, 6 of the projects have been aimed at promoting STEM
