Service/Technology: Elaboration of labour market insertion reports for university degrees, master's degrees and doctorates.

Logo B-N

Field work to obtain information on the employment situation of graduates, both bachelor's and master's degree and doctorate graduates. Analysis of the characteristics of first employment. Determination of the employment trajectory of graduates of each degree. Evaluation of the employment and unemployment rates of each degree. Analysis of the degree of adjustment between the level required to fill the position and the educational level of the graduates of each degree. Analysis of the characteristics of graduates' jobs and of the organisations where they work. Study of the reasons for unemployment among graduates and the actions being taken to reverse the situation.
