2025

Artículos científicos del año 2025 indexados en Journal Citation Reports (JCR).

Título	Revista	Autores	Cuartil
Green extraction strategies to obtain bioactive compounds from ‘Charelo’ vine shoots	Sustainable Chemistry and Pharmacy	Muñoz-Realpe, C.C., Contreras, M.D.M., Vidal, A.M., Castro, E., Romero, I.	Q1
Uncovering the Techno-Economic and Environmental Implications of a Multiproduct Biorefinery from Exhausted Olive Pomace	ACS Sustainable Chemistry and Engineering	Pérez-Almada, D., Galán-Martín, A., Contreras, M.D.M., Romero-García, J.M., Castro, E.	Q1
Olive pomace fly ash as an alternative alkaline activator for electric arc furnace slag for sustainable cementitious materials	Materials	Muñoz-Castillo A, Andrés-Castro F, Gómez-Casero MÁ, Eliche-Quesada D.	Q1
Continuous production of antioxidant extracts from olive leaves and branches through twin-screw extrusion: a feasibility study	Industrial Crops and Products	Evon, P.; Labonne, L.; Vialle, C.; Sablayrolles, C.; Contreras, MdM.; Vidal, A.; Castro; E.	Q1
Enhanced succinic acid biochemical production through steam explosion of phosphoric soaked vine shoots	Bioresource Technology Reports	Cardoza, D., Marzo-Gago, C., Romero, I., Castro, E.	Q1
Improved extraction yield in olive oil mill using talc and kaolinitic clay	LWT	Peralta, R.; Vidal, A.M.; Espínola, F.; Ocaña, M.T.; Moya, M.	Q1
OrganoCat fractionation of vine shoots for coproduction of bioethanol, furfural, and lignin	Industrial Crops and Products	Lara-Serrano, M., Morales-delaRosa, S.,Campos-Martín, J.M., Romero, I., Castro, E., Oliva, J.M., Manzanares, P.	Q1
Valorisation of rice husk ash as an activator in the preparation of alkali-activated cements based on electric arc furnace slag	Archives of Civil and Mechanical Engineering	Muñoz-Castillo, A., Sánchez-Soto, P.J., Eliche-Quesada, D.	Q1
Sustainable conversion of furfural residues to bioenergy: supporting environmental management via life cycle assessment	Energy Conversion and Management	Azarakhsh, F.A.-S.,Madadi, M.,Galán-Martín, Á., Denayer, J. F.M., Liu, D.,Karimi, K.	Q1

Increasing the Bioactive Compound Content of Olive Oil by Acidification of Olive Paste	Foods	Peralta, R.; Vidal, A.M.; Espínola, F.; Ocaña, M.T.; Moya, M.	Q1
Synthesis of iron oxide/activated hydrochar composite from residual brewery biomass for remediation of water contaminated with chlorophenol	*Scientific Reports*	Kopp, M., Anabalón, P., Rocha, S., Gónzalez, M.E., Romero-García, J.M., Castro, E., Cea, M.	Q1
Impact of incorporating spent oil filtering earths into the formulation of alkali-activated cements based on electric arc furnace slag	Environmental Science and Pollution Research	Delgado-Plana, P., Gómez-Casero, M.Á., Bueno-Rodríguez, S., Sánchez-Soto, P.J., Eliche-Quesada, D.	Q1
Microwave-Assisted Biodiesel Production Using Activated Oat Hull-Derived Biochar as Catalyst	*Catalysts*	Ñanculeo, J.; Nahuelcura, B.; Cea, M.; Abreu, N.; Garrido-Miranda, K.; Meier, S.; Romero-García, J.M.; González, M.E.	Q1
Evaluating the integration of olive tree pruning fractionation with ternary eutectic solvent after aqueous pre-extraction or dilute acid pre-treatment	Separation and Purification Technology	Gómez-Cruz, I., Sosa, F., Maria Laura Alfieri, M.L., Esposito, R., Panzella, L., Labidi, J., Goodfellow, B., Castro, E., Silvestre, A.J.D., da Costa Lopes, A.M.	Q1
Sustainable bioethanol production and phenolic compounds from avocado stone biomass based on microwave pretreatment	Foods	Morán-Alarcón, L.C.; Contreras, M.d.M.; Romero-García, J.M.; Galán-Martín, Á.; Castro, E.	Q1
Planetary boundary analysis in the environmental assessment of corn stover biorefineries	Biofuels, Bioproducts & Biorefining	Hernandez-Arango, J.F.; Ortiz-Sanchez, M.; Solarte-Toro, J.C.; Galán-Martín, Á.; Castro, E.; Alzate, C.A.C.	Q1
Bioconversion of vine shoots into renewable products using ohmic heating extraction and autohydrolysis	Sustainable Chemistry and Pharmacy	Cardoza, D.; Gomes-Dias, J.S.; Pereira, S.; Romero, I.; Castro, E.; Rocha, C.M.	Q1
Green-synthesized carbon quantum dots–silver nanocomposites for broad-spectrum antimicrobial and wound healing applications	Journal of Drug Delivery Science and Technology	El Ghacham, S., Hejji, L., Aoulad El Hadj Ali, Y., Azzouz, A., Pérez-Villarejo, L., Tamegart, L., Souhail, B., Castro, E.	Q1
Characterization of tea saponins in camellia seed oil and their antioxidant behaviors: Exploration of efficient antioxidant pathway with natural surfactants in bulk oil	LWT	Wang, X., Contreras, M.D.M., Fang, E., Xu, D., Xing, C., Jiang, Q.	Q1

Techno-economic feasibility of olive residue-based biohubs for marine biofuel production: A capability-sensitive and context-specific approach in the Mediterranean region	Energy Conversion and Management: X	Chandrasekaran, S.,Vidal, A. M., Castro, E.,Osseweijer, P., Posada, J.	Q1
Study of the biocidal capacity of ferromagnetic Fe3O4 nanoparticles combined with H2O2: synthesis and optimization of key variables	Chemical Papers	Hejji, L., Muñoz, A.J., Azzouz, A., Pérez Villarejo, L., Castro, E., Moya, M., Espínola, F., Rodríguez-Castellón, E.	Q3
