## **Call for Registration:** PAR International Summer School Sail & Learn 2026 – An International Academic Adventure in Rijeka

Dear students,

we are delighted to invite you to join us in Rijeka, Croatia, from **6 to 19 July 2026** for the PAR International Summer School Sail & Learn 2026. This unique programme combines academic learning, Adriatic sailing, cultural experiences, and international networking.

The programme is designed as a two-week international learning experience. During the first week, held at PAR University of Applied Sciences, participants will attend inspiring lectures, workshops, and interactive sessions, form international teams, and begin working on their project challenges. In the second week, learning moves beyond the classroom as participants sail along the Croatian coast, continuing to develop their ideas while exploring the unique cultural and entrepreneurial context of the islands.

Participants can earn 5 ECTS credits per week, meet peers from around the world, and gain valuable international experience while enjoying an unforgettable summer adventure. Now in its 11th edition, Sail & Learn continues to bring together an international community of students for an inspiring combination of academic learning and cultural exploration. Through engaging lectures, cultural visits, and dynamic social activities – including sailing trips, a guided city tour, the Dean's Dinner, and excursions to some of the region's cultural treasures – the programme offers the perfect balance between academic enrichment and summer exploration. And because no great conversation should happen on an empty stomach, daily lunches are included, providing excellent opportunities for networking, collaboration, and idea exchange among participants from diverse backgrounds.

### **Application Process:**

All applicants are kindly asked to submit the following by **15 June 2026**:

- Registration form (please follow the [link](#));
