

Dear Partner,
Greetings from National Changhua University of Education (NCUE).

Department of Biology, National Changhua University of Education,
Taiwan is glad to announce a **TEEP@AsiaPlus program**, aimed to provide a **6-month high quality internship for students interested in biotechnology, digital learning**.

The internship, sponsored by the Ministry of Education Taiwan, will be from **1st August 2020 to 31st January 2021**, and include a hands-on biotechnology workshop and a special topic research of the intern's choice.

Field of study includes:

- Animal Biotechnology (Dr. Chi-Ying Lee; bicylee@cc.ncue.edu.tw),
- Marine Biotechnology (Dr. Chuian-Fu Ken; kencf@cc.ncue.edu.tw),
- Molecular Nutraceuticals (Dr. Chiu-Lan Hsieh; clhsieh@cc.ncue.edu.tw),
- Fungus-Insect Symbiosis (Dr. Chi-Yung Lai; laicy@cc.ncue.edu.tw),
- Game-based Science Learning (Dr. Meng-Tzu Cheng; mtcheng@cc.ncue.edu.tw),
- Cognition and Learning (Dr. Wen-Chi Chou; chouwenchi@cc.ncue.edu.tw).

The internship carries a stipend of at least 11,000 New Taiwan Dollar/month for 6 months, with possibility of enrolling in degree seeking programs on biotechnology or science education.

NCUE to help orient the incoming interns; in-campus dormitory is possible with advance reservation.

Interested students are invited to send her/his résumé by **15th February 2020** directly to the **principal investigator (as listed above)** whose field of study students wish to pursue.
