

Focus Academy

Blended intensive programme (BIP)

Introduction to Information Security Requirements

3 ECTS credits

January 20 – February 9, 2025 (online and on-site)

Are you interested in Security Requirements?

Are you curious how we can use the misuse cases in Information security requirements?

Do you want to meet students from all over Europe in Örebro (Sweden) to discuss these topics for a week in February 2025?

One of the challenges in software system development is to understand information security requirements that need to be fulfilled. The focus of this course is how to analyze and evaluate information security requirements and to communicate these requirements with other relevant actors in the system development life cycle. Different methods for information security requirement engineering are covered. This course also develops students' skills in presenting information security requirements in both writing and speech.

Remote part

Online
20th January – 2nd February

On-Campus Part

Örebro University
3rd Feb 2025 to 9th Feb 2025
