Blended intensive programme (BIP)

PERSONAL HEALTH DATA MANAGEMENT

Fostering Digital Transformation through Innovative Skills in Health Data Management!

3 ECTS

Virtual Period: June 9 – 20, 2025

Physical Mobility: June 30 – July 4, 2025 at Fisciano Campus, UNISA

Would you like to learn how to securely manage health data?

Are you curious about the legal and ethical aspects of personal data management?

Do you want to meet students from all over Europe in Salerno (Italy) to discuss these topics for a week in summer 2025?

This interdisciplinary program equips students with **essential skills in managing personal health data** using cutting-edge ICT tools. Learn how to:

- Model, process, and visualize health data.
- Address privacy and security concerns under GDPR.
- Develop effective digital health solutions with a human-centered approach.

Participants will work collaboratively across disciplines such as computer science, healthcare, and management, ensuring a **comprehensive learning experience**.

June 9 – 20, 2025
