Title CBUA: Research techniques using advanced database tools with the EBSCOhost interface

Date and time: 20 nov 2025 17:30

This session is aimed at anyone involved in scientific research or studying for a master's degree. Several EBSCO tools to support research will be presented (EBSCO Passport, Alerts, combined searches, advanced search options configuration). We will present all the databases available at the University through the CBUA.

Duration: 60 minutos
