

[Framework Programme \(Horizon Europe\)](#)

Horizon Europe is the **EU's key funding programme for research and innovation** with a budget of €95.5 billion. It tackles climate change, helps to achieve the UN's Sustainable Development Goals and boosts the EU's competitiveness and growth, as described at the [European Commission's webpage](#):

According to HE WP 23-24 [General Annexes](#), the following **activities** are generally eligible for grants under Horizon Europe:

- Research and innovation actions (RIA): *Activities that aim primarily to establish new knowledge or to explore the feasibility of a new or improved technology, product, process, service or solution. This may include basic and applied research, technology development and integration, testing, demonstration and validation of a small-scale prototype in a laboratory or simulated environment.*
- Innovation actions (IA): *Activities that aim directly to produce plans and arrangements or designs for new, altered or improved products, processes or services. These activities may include prototyping, testing, demonstrating, piloting, large-scale product validation and market replication.*
- Coordination and support actions (CSA): *Activities that contribute to the objectives of Horizon Europe.*
