

Project experience

The University of Jaén is part of the worldwide [*Cherenkov Telescope Array \(CTA\)*](#) project, which includes 1,500 members from more than 200 institutes in 31 countries:

Imagen Cherenkov Telescope Array Project

Also, the UJA's action '[Nature-based solutions against emerging pollutants](#)' has successfully endorsed the [EU Mission Restore our Ocean and Waters Charter](#).

Additionally, the UJA has taken part in different calls for proposals and has been a beneficiary (or coordinator) of the following **funded projects** since 1994, as described below (per starting year).
