## **Project experience**

The University of Jaén is part of the worldwide <u>Cherenkov Telescope Array (CTA)</u> project, which includes 1,500 members from more than 200 institutes in 31 countries:

Also, the UJA's action 'Nature-based solutions against emerging pollutants' has successfully endorsed the **EU Mission** Restore our Ocean and Waters Charter.

Additionally, the UJA has taken part in different calls for proposals and has been a beneficiary (or coordinator) of the following **funded projects** since 1994, as described below (per starting year).
