

# **BIO-294 Immunogenetics**

**Coordinator:** Dr. Francisco José Márquez Jiménez (jmarquez [arroba] ujaen [punto] es)

## **Website of the group**

[The Immunogenetics research group's Web](#)

## **Research lines**

- Genetic polymorphisms and disease
- Vector-borne diseases
- Genetic diversity in animal populations
- Genetic diagnosis
- Internal medicine
- Pharmacogenetics

## **Related services and products**

- [Method for determining HIV-1 tropism and associated kit](#)
- [Method for obtaining useful data for predicting or prognosticating response to treatment with pegylated interferon plus ribavirin in patients co-infected with HIV and hepatitis-C viruses](#)
- [Combined genetic polymorphisms of LDLR and IL28B for predicting response to treatment with pegylated interferon plus ribavirin in patients infected with the hepatitis-C virus](#)
- [Method for obtaining useful data for predicting or prognosticating response to treatment with pegylated interferon plus ribavirin in patients infected with the hepatitis-C virus, genotype 3](#)
