Comment	<p>The University of Jaén actively participates in intersectoral relations by implementing the programs of the international and national Compacts of the SDGs to which the university is subscribed. Evidence can be found in the Commitment Report of the United Nations Compact with the 10 Principles and the Sustainable Development Goals (SDG) of the UN 2030 Agenda (page 32 PARTNERSHIPS TO ACHIEVE THE SUSTAINABLE DEVELOPMENT GOALS) where there is detailed information on activities. For example, the University Sustainability Assessment Working Group, the University and Mobility Working Group, both of the Sustainability Sector of the CRUE (Conference of Rectors of Spanish Universities). Likewise, the UJA maintains membership and relations with organizations such as: the United Nations Global Compact, the Commitment to Fair Trade, the Rio 2012 Declaration, the Andalusian Network of Health Services and Smoke-Free Spaces, etc.</p>	
Does your university as a body participate in international collaboration on gathering or measuring data for the SDGs?	Yes	-
Evidence	<p>Evidence url:  <a href="https://www.ujaen.es/gobierno/anuario/la-uja-en-rankings">https://www.ujaen.es/gobierno/anuario/la-uja-en-rankings</a>  <a href="https://www.ujaen.es/gobierno/anuario/la-uja-en-rankings">https://www.ujaen.es/gobierno/anuario/la-uja-en-rankings</a></p>	
Comment	<p>The University of Jaén provides information and good practices through data reports to international rankings related to the SDGs: 1. THE Impact Rankings. 2. GreenMetric World University Ranking that promotes sustainability in higher education institutions around the world through indicators of environment and infrastructure, energy and climate change, waste management, water, transport and education. 3. United Nations Compact Social Progress Report. Other international rankings related to SDG 4 (quality in education) and SDG 9 (Innovation): World University Rankings. Times Higher Education World University Rankings. Shanghai Ranking. CWUR World University Rankings. (In the evidence you can find a section of the UJA Statistical Yearbook called "The UJA in Rankings").</p>	
Does your university as a body, through international collaboration and research, review comparative approaches and develop international best practice on tackling the SDGs?	Yes	-

Name	Value	Year on year change from 2024
Evidence	Evidence url: <a href="https://reds-sdsn.es/wp-content/uploads/2020/05/Dosier-REDS_Casos-ODS-Univ-2020_web.pdf">(https://reds-sdsn.es/wp-content/uploads/2020/05/Dosier-REDS_Casos-ODS-Univ-2020_web.pdf)</a>	
Comment	The University of Jaén promotes the collaborative development of good practices in the implementation of the SDGs with the Spanish Network for Sustainable Development (Evidence 1, publication of good practices, Mobility Program "Hack the City, p. 60). Another example is the publication of the good practice of the Tree Management Plan of the University of Jaén (SDG 13 and 15) in the Ibero-American Network METARED. Another area of international collaboration is related to the projects contemplated in the Action Plan for International Development Cooperation through studies and actions to implement the SDGs (see metric 13.3.5). We highlight as an example of a research project (European Union) the "Study on solar and wind energy at a national level to determine the spatial distribution and optimal number of solar plants and wind farms in order to obtain an electrical system based on renewable energies in the future".	
Does your university as a body collaborate with NGOs to tackle the SDGs through:	student volunteering programmes, research programmes, development of educational resources	-
Evidence	Evidence url: <a href="https://www.ujaen.es/gobierno/direccionestrategica/sites/gobierno_direccionestrategica/files/uploads/Planes%20Directores/PLAN%20DIRECTOR%20DE%20COOPERACION%CC%81N%20Y%20VOLUNTARIADO%20.pdf">(https://www.ujaen.es/gobierno/direccionestrategica/sites/gobierno_direccionestrategica/files/uploads/Planes%20Directores/PLAN%20DIRECTOR%20DE%20COOPERACION%CC%81N%20Y%20VOLUNTARIADO%20.pdf)</a>	
Comment	NGOs. The University of Jaén establishes collaboration policies with NGOs and entities to develop programs with an impact on the SDGs (Master Plan for Development Cooperation and Volunteering of the University of Jaén 2021-2023). See, for example, page 9 of the evidence document. TRAINING RESOURCES. New Postgraduate Diploma in Human Rights and Sustainable Development to promote the achievement of the SDGs and the 2030 Agenda (financed by the Andalusian Agency for International Development Cooperation and the collaboration of Amnesty International). COMPANIES: University Chairs with companies (metric 16.3.2). The University and Business Foundation (metric 1.2.4). RESEARCH for the study and development of projects with an impact on the SDGs (metric 13.3.4, relationship of research projects with the SDGs).

## Education for the SDGs

Does your university as a body have a commitment to meaningful education around the SDGs across the university, that is relevant and applicable to all students?	integrated across full curriculum, mandatory education for all, optional education for all	-
Evidence	<p>Evidence url:  <a href="https://www.ujaen.es/gobierno/planeuja/sites/gobierno_planeuja/files/uploads/PEUJA3-25(CG16122020.pdf">https://www.ujaen.es/gobierno/planeuja/sites/gobierno_planeuja/files/uploads/PEUJA3-25(CG16122020.pdf</a>  <a href="https://www.ujaen.es/gobierno/planeuja/sites/gobierno_planeuja/files/uploads/PEUJA3-25(CG16122020.pdf">https://www.ujaen.es/gobierno/planeuja/sites/gobierno_planeuja/files/uploads/PEUJA3-25(CG16122020.pdf</a></p>	
Comment	<p>The University of Jaén has made a commitment to the SDGs in its III Strategic Plan 2021-25, in the educational strategic objective: "Incorporate the Sustainable Development Goals into undergraduate and master's teaching, professional internships, university programs for seniors, and lifelong learning." It is extended to all programs and curricula of the degrees offered (see in evidence: point O1.3, p. 23). Inclusion of: O6.3. "Coordinate ongoing training, volunteering, and development cooperation in achieving the SDGs in a strategy that combines attracting talent and collaboration with developing countries with comprehensive student training." (See in evidence, p. 40). A specific example of application is the promotion and award of the best Final Degree Projects and Final Master's Projects on SDGs.</p>

Does your university as a body have dedicated courses (full degrees, or electives) that address sustainability and the SDGs?	Yes	-
Evidence	<p>Evidence url:</p> <p><a href="https://www.ujaen.es/servicios/spe/sites/servicio_spe/files/uploads/node_seccion_de_micrositio/2024-10/M%C3%81STER-ODS%202022-23.pdf">(https://www.ujaen.es/servicios/spe/sites/servicio_spe/files/uploads/node_seccion_de_micrositio/2024-10/M%C3%81STER-ODS%202022-23.pdf)</a></p>	
Comment	<p>An example of a specific course on the SDGs is the "Diploma in University Extension on Sustainable Development Goals (SDGs): towards comprehensive student training", offered openly (<a href="https://www.ujaen.es/estudios/oferta-academica/titulos-propios/diplomas-de-extension-universitaria/diploma-de-extension-universitaria-en-objetivos">https://www.ujaen.es/estudios/oferta-academica/titulos-propios/diplomas-de-extension-universitaria/diploma-de-extension-universitaria-en-objetivos</a>). Other examples: Course "Human rights and the SDGs within the framework of international development cooperation. "Expert Diploma in Legal Control of Environmental Responsibility"; There are numerous specialization and complementary training degrees in subjects related to the SDGs, which can be consulted at <a href="https://www.ujaen.es/estudios/oferta-academica/titulos-propios">https://www.ujaen.es/estudios/oferta-academica/titulos-propios</a>. In addition, the offer of official postgraduate courses has a clear focus on the SDGs (see evidence). For example, the University Master's Degree in Renewable Energies; or Master's Degree in Photovoltaic Systems Engineering.</p>	
Does your university as body have dedicated outreach educational activities for the wider community, which could include alumni, local residents, displaced people?	alumni, local community, displaced people and refugees	-
Evidence	<p>Evidence url:</p> <p><a href="https://www.ujaen.es/estudios/oferta-academica/titulos-propios/diplomas-de-extension-universitaria/diploma-de-extension-universitaria-en-objetivos">(https://www.ujaen.es/estudios/oferta-academica/titulos-propios/diplomas-de-extension-universitaria/diploma-de-extension-universitaria-en-objetivos)</a></p>	
Comment	<p>The example of a specific course on SDGs shown in the previous metric "University Extension Diploma on Sustainable Development Goals (SDGs): towards comprehensive student training" is open and free for the general community. (See evidence). Likewise, open dissemination programs on SDGs are carried out through the annual AULA VERDE program (see examples in metrics 14.2.1 or 15.2.4), through the Scientific Dissemination plan (see metric 4.3.4), aimed at the School Community of the Province, and through the university extension offer open to the general public (see metrics 1.4.3, 4.3.4 and 4.3.5). All of these programs are open so that graduates, the community, university students in mobility and shelter programs, and schoolchildren from educational institutes can attend them.</p>	
Does your university as a body measure the sustainability literacy of students?	Yes	-

Comment	<p>The University of Jaén has specific assessment systems for the subjects it teaches. However, for non-regulated training activities aimed at the community in general, the UJA will continue to promote the use of assessment methods such as: formative assessments (through questionnaires or short tests throughout the course to measure the understanding of key concepts), projects and practical activities, debates and discussions, reflections, final assessments, observation of active participation in class and interest in collaboration in group activities, etc. in order to assess the ability of students to learn and retain key concepts. An example of the assessment system for the Master's Degree in Habitat Analysis, Conservation and Restoration can be seen in the evidence.</p>	

## No Poverty (SDG 1)

Comment	The University of Jaén, as a public institution, applies the Government's objectives regarding the admission of students at risk of exclusion from university access due to a family income group in the lowest 20%. An example is the Resolution of the Secretary of State for Education calling for general scholarships for the 2023-24 academic year for students pursuing post-compulsory studies. The UJA participates in the management of the national system of scholarships and study grants. The specific data for the 2022-2023 academic year of the beneficiary students of the University of Jaén and the amounts can be consulted in the evidence, page 6 and following. It is important to note that these documents are publicly accessible (web pages).	
Does your university as a body have graduation/completion targets for students who fall into the bottom 20% of household income group (or a more tightly defined target) in the country? (domestic)	Yes	-

Comment	The objective duration of studies to obtain the degree is the value of the eligibility rate at the time of graduation. Time not exceeding 5 years for four-year Bachelor's degrees and 2 years for one-year Master's degrees. The eligibility rate of students with scholarships and financial aid (20% lower in family income levels) in the 2022-2023 academic year has been 4.69 years for Bachelor's degrees and 1.2 years for Master's degrees. (See evidence). In order to ensure that students do not abandon their studies or are prevented or hindered from carrying out and completing their studies for financial reasons, the University of Jaén has established an annual program of urgent social aid for students. Detailed information on this program, including the most recent call for applications, can be consulted through the university's publicly accessible web pages (web pages) (See metric 1.3.3).

Comment	FREE. In order to prevent students from dropping out of school or from being unable or unable to complete their studies due to financial reasons, the University of Jaén has established its own urgent social aid plan for students, which is announced every year. (See evidence). In this link to the evidence you can also consult the different calls for scholarships and grants, such as: Grants for collaborating students who provide assistance to students with disabilities, Grants for students with reduced mobility, Grants for adapted transport, etc.	-

Comment	The annual programme of the Plan for Urgent Social Aid, indicated above and which is called every year, is the most direct programme to ensure that students do not abandon their studies or have difficulties in finishing them for economic reasons (see evidence, see last call). Some types of grants are: Grants for students (payment of full or partial tuition). Grants for students who prove the need to reside away from the family home for the entire school year. Grants for non-EU foreigners in a situation of vulnerability or social exclusion. Other important grants, as they are necessary to obtain the language qualification required for the degree, are the calls for Grants for the Promotion of the Acquisition and Accreditation of Linguistic Competencies. The evidence is public (web pages).	-

Comment	The University of Jaén has support programs for international students from economically disadvantaged countries. For example: Aid program for refugee students. Aid program for postgraduate students from Latin American countries. Talent Attraction Scholarships. All aid programs can be consulted in the drop-down links in the evidence. In indicator 1.2, full-time equivalent students from low- and lower-middle-income countries with scholarships have been computed, so several international scholarship programs are financed with the University of Jaén's own funds. The aid program for refugees from countries in conflict has been carried out since 2016 and was presented by the University of Jaén to the United Nations (UN) and continues to be applied.

The UJA provides students with a wide range of resources aimed at enabling them to create their own job, their own company: For example, access to the most qualified technical advice through professionals from entities that collaborate with the University of Jaén. Participate in the TFG/TFM award. Receive theoretical-practical training with academic recognition in credits to be able to prepare the business plan through MOOCs on University Entrepreneurship. Attend the annual Employment and Entrepreneurship Fair. Obtain financial aid. Obtain business accommodation. (See evidence). Likewise, the UJA has (every year) an Entrepreneurship and Employability Plan which includes support programs for training in entrepreneurship and the creation of sustainable companies. We highlight the financial aid programs to promote the creation of companies among students and graduates.

Comment	The University of Jaén has a financial aid programme to promote the creation of companies. This programme is developed jointly with the Provincial Council of Jaén with the aim of granting financial incentives aimed at supporting entrepreneurs in the development of their business project (see evidence). It has technical advice and support programmes for entrepreneurs and self-employed workers that are carried out in collaboration with local entities (Business Development Support Centre of the Junta de Andalucía). In addition, the University of Jaén finances through its Spin-off shareholders (see associated indicator in metric 9.3).

Comment	LOCAL AND REGIONAL LEVEL. The University of Jaén is a member and participates as a driving agent in the development of policies and strategies at local and regional level (Strategic Plan for the City of Jaén and Strategic Plan for the province of Jaén). NATIONAL. The University of Jaén carries out its own cooperation projects and with the Spanish Agency for International Development Cooperation (AECID) and the Agency of the Regional Government of Andalusia (AACID) to put an end to the problem. GLOBAL. The European Anti-Poverty Network (EAPN) awards the UJA teaching innovation project 'Photovoice-Jaén' (see evidence). The UJA is carrying out the Master Plan for Development Cooperation and Volunteering of the University of Jaén (2021-2023), which defines the objectives and lines of action of university cooperation for development.

Comment	The University provides cafeteria and restaurant services through a concessionaire company. Food safety criteria were established in the award document. The technical award report specifies the criteria associated with this issue: 1. The Quality Department defines all the characteristics that the chosen products must meet in terms of quality, health and safety. 2. Daily control of samples following health protocols. 3. Menus prepared by a qualified Dietician Nutritionist who prepares a monthly menu chart, with types of food, preparation and cooking techniques. See example in food safety specifications in the evidence, all pages).

Comment	The University of Jaén is a signatory to the Commitment to Fair Trade: Institutional Declaration in favour of the consumption of Fair Trade products. In this sense, it has favoured the provision of products on the university campus and the promotion of the commemoration of the International Fair Trade Day (First Evidence). This commitment translates into the use of Fair Trade products and is valued as an award criterion in the specifications for the award of contracts for the operation of canteens and cafeterias (see metrics 2.3.1, 2.3.3). Every year, the UJA organises the initiative "The Fruit Challenge" launched within the framework of the commemoration of the Day of Healthy Universities on 6 October, promoted by the Network of Health Promoting Universities.

Comment	LOCAL. The University of Jaén is part of the University Hospital of the Province of Jaén. It carries out collaborative activities with local health entities during the years 2020, 2021 and 2022 in relation to the Covid pandemic. Other examples: The Psychology Office is registered as a health center in the Junta de Andalucía. Collaboration between the UJA and the College of Nursing of Jaén. NATIONAL: DAREMOS and PROCARE, two initiatives promoted by the UJA to promote health and well-being in adolescents, in which the Ministry of Science and Innovation and the Ministry of Social Rights and Agenda 2030 are also involved. An example of the development of these initiatives is the PROCARE initiative, led by researchers from the UJA, which reduces the risk of suffering emotional problems in adolescents by almost half (see evidence).

Comment	The policy for women's access to the University is established in the Equality Plans approved by the Governing Council. The objective of this policy is to avoid gender imbalance in the areas of activity of the UJA. In the student sector, actions are established to avoid horizontal segregation by gender by branches of knowledge and qualifications. The last approved Plan is the 2021-2023 and is public (see evidence). The Equality Unit of the University of Jaén has among its functions: to advise, coordinate and evaluate the transversal incorporation of equality in the development of university policies, as well as to include the gender perspective in all activities and functions of the university.

Comment	<p>The University of Jaén offers several measures to support people who are parents (teaching and research staff and technical, management, administration and service staff): 1. Maternity and paternity leave (leave of absence from work without losing employment). 2. Work flexibility (reduction of workload or adjustments in schedules to facilitate conciliation). 3. Advice and support (guidance and psychological support services for parents). In the evidence you can see the page where to start the process of the application for Maternity / Paternity / Adoption or Fostering benefit. The policy applied by the University is that included in Spanish legislation at state level (Royal Decree 295/2009 and Workers' Statutes).</p>

Does your university as a body have accessible childcare facilities for students which allow recent mothers to attend university courses?	No	-
Comment	The University of Jaén has a centre for early childhood education, although the service is not currently provided because the demand for this type of service is already covered by the public nursery schools in the area surrounding the campus.	-

Comment	The University of Jaén implements the Tutorial Action Plan for each of its Schools and Faculties every academic year. The objectives of this Plan include tutoring tasks related to the personal life of the student, based on positive interrelation and the creation of an appropriate climate in which the student can share with the tutor his or her life plan and the problems he or she is experiencing in his or her academic development. This plan is aimed at all students, including women, and therefore includes a figure well above 10% of female students. In addition, the University of Jaén provides psychology services through the Psychology Office to students and employees (see metrics 3.3.5 and 3.3.7).	-

Comment	<p>The University of Jaén has comparative measurements of graduation by sex (Statistical Yearbook). Its analysis indicates that there is no comparative gap between sexes. (See evidence). A gender analysis of the labour insertion of graduates is carried out. See data for indicator 5.5 and in the evidence the segmentation of the data by sex. The programmes to combat the gender gap are included in the III Master Plan for Equality and Integration of Sexual and Gender Diversity of the University of Jaén (2021-2023).</p>

Comment	<p>The University of Jaén has a Protocol for the prevention and action against sexual harassment, based on sex, sexual orientation, gender identity or gender expression. It must guarantee the duty of confidentiality and the protection of the privacy of all personnel involved in this procedure and of the persons involved. This protocol applies the Regulation on the protection of natural persons with regard to the processing of their personal data. In addition, it has a procedure for the preventive management of conflicts linked to situations of moral harassment at work. The policy is included in section 2, including the procedures for action (see evidence of the Protocol for Preventive Management of Conflicts Linked to Situations of Moral Harassment at Work). Other mechanisms: possibility of filing a complaint or requesting mediation before the University Ombudsman for the defense of rights and freedoms that may be violated by the authorities and the university administration.</p>

Comment	The University of Jaén monitors and studies water consumption in detail on all its campuses and buildings. The detailed water consumption report (2023) can be seen in the evidence. The rainwater collected on the Linares Campus is also measured and is stored in a 1,000,000-litre cistern and used both for watering gardens and filling toilet cisterns. The rainwater collected on the football field of the Jaén Campus is poured into a 150,000-litre cistern for watering gardens. (This information on the management and control of water consumption in buildings and infrastructure can be found in the evidence for metric 6.3.1).

## Water usage and care

Does your university as a body have a process in place to treat waste water?	Yes	-
Evidence	Evidence url: <a href="https://www.ujaen.es/servicios/utecnica/eficiencia-energetica-y-ods/consumo-de-agua">https://www.ujaen.es/servicios/utecnica/eficiencia-energetica-y-ods/consumo-de-agua</a> ( <a href="https://www.ujaen.es/servicios/utecnica/eficiencia-energetica-y-ods/consumo-de-agua">https://www.ujaen.es/servicios/utecnica/eficiencia-energetica-y-ods/consumo-de-agua</a> )	
Comment	The University of Jaén applies the wastewater treatment processes implemented in the municipal network. It applies the biological decontamination process of the wastewater produced in Zone P2 of building A1, Animal Production and Experimentation Centre (Biowaste system). Application of the treatment of grey and waste water in the Accommodation building (see evidence). The University of Jaén is a member of the Jaén Norte Residual Water Irrigation Cooperative, which allows it to use the treated wastewater appropriately for garden irrigation.	
Does your university as a body have processes to prevent polluted water entering the water system, including pollution caused by accidents and incidents at the university?	Yes	-

Comment	The water supply at the University of Jaén comes exclusively from the municipal network. Additionally, in compliance with the regulations for the prevention and management of legionellosis, all water supply systems in the buildings have: 1. Mechanical filters according to UNE-EN 13443-1. 2. A system of check valves, according to UNE-EN 1717, which prevent water from returning due to loss of pressure or a decrease in the supplied flow rate and especially, when necessary, to avoid mixing water from different circuits, qualities or uses. 3. Periodic bacteriological analyses. The first evidence shows the planning and Systems Maintained for the Prevention and Control of Legionellosis at the UJA. Another mechanism to avoid accidents is the pressure equipment maintenance program (see evidence), which includes the programming for the maintenance of the UJA's pressure equipment (periodic reviews according to their category: levels A, B and C).	
Does your university as a body provide free drinking water for students, staff and/or visitors, e.g. drinking water fountains)?	Yes	-
Evidence	Evidence url: <a href="https://www.ujaen.es/servicios/utecnica/servicio-de-mantenimiento/mantenimiento/mantenimiento-preventivo/fuentes-de-afch">https://www.ujaen.es/servicios/utecnica/servicio-de-mantenimiento/mantenimiento/mantenimiento-preventivo/fuentes-de-afch</a> ( <a href="https://www.ujaen.es/servicios/utecnica/servicio-de-mantenimiento/mantenimiento/mantenimiento-preventivo/fuentes-de-afch">https://www.ujaen.es/servicios/utecnica/servicio-de-mantenimiento/mantenimiento/mantenimiento-preventivo/fuentes-de-afch</a> )	
Comment	All floors of the campus buildings have drinking water fountains. 13 outdoor ones, located in the pedestrian areas of the Jaén (9) and Linares (4) campuses, and 38 indoor ones, in the Jaén (30) and Linares (8) buildings. (See evidence). The preventive maintenance program for Cold Water Fountains for Human Consumption (AFCH) is applied.	
Does your university as a body apply building standards to minimise water use? (relevant standards to be indicated)	Yes	-

Comment	In the construction of buildings, the standards required by current regulations are applied. The most important is: Technical Building Code, basic health requirements (ES) "Hygiene, health and environmental protection". A concrete example is the General Report of the Preliminary Building Project of the Rectorate, in accordance with DB ES-4 + RITE + Regulations for Domestic Water Supply of the Junta de Andalucía, prepared in compliance with clause 18 of the Framework Agreement for the performance of technical work in construction. (See page 23 of the evidence).

Comment	<p>The University of Jaén has a project to improve the management of its Green Infrastructure that is being developed through the Urban Tree Management Plan. (See the Green Infrastructure Improvement Project and the link to the Urban Tree Management Plan in the evidence). The objectives include the "avoidance of runoff" with trees. Specifically, Objective 9 on the choice of species in harmony with nature includes the use of species with low water consumption. It is complemented by Objective 5 on optimisation of water resources. Monitoring of this objective indicates that the trees and shrubs at the University of Jaén contribute to reducing runoff by almost 82 m3.</p>	

## Water reuse

Does your university as a body have a policy to maximise water reuse across the university?	Yes	-

Comment	<p>The University of Jaén includes in its Environmental Sustainability Policy Statement "Promote the saving of natural resources, raw materials and energy, rationalizing consumption by adopting the necessary measures" (see evidence, p. 1). In the Strategic Plan of the University of Jaén (2021-2025), a policy has been formulated in Objective O6.2. Develop environmentally responsible policies that prioritize the use of clean energy and the creation of a sustainable environment. The Environmental Sustainability Master Plan of the University of Jaén, 2021-2023, has established the policy related to clean water and sanitation in objective 6 with the aim of improving water and sanitation management. In the Green Infrastructure Management Improvement Project, Objective 5 "Optimization of water resources" includes the use of irrigation with previously recovered rainwater.</p>

Comment	At the Linares Campus Technology Park, all rainwater from roofs and drains is collected for irrigation systems and cisterns. In this way, at least 1,150 cubic metres are reused annually (this is the capacity of the Campus's rainwater tank). The rainwater collected from the football pitch at the Jaén Campus feeds a 150,000-litre cistern that is used to irrigate gardens. The grey water generated in the University Housing building is reused to supply the toilet cisterns. Explanations of water reuse and the measures can be seen in the evidence.	-

## Water in the community

Does your university as a body provide educational opportunities for local communities to learn about good water management?	free	-

Comment	FREE. The University of Jaén has adopted the policies developed by the Ecocampus agreement through the annual programming of the Green Classroom and the Sustainability Secretariat. Among the activities carried out is the annual launch of training resources for environmental volunteering, including water management. These courses are open to the community. Example of a training activity: "Water resources: river water and groundwater. Importance for sustainability and the SDGs". (See evidence). Every year, Green Week is held at the University of Jaén on the occasion of World Water Day and the celebration of World Wetlands Day. A series of open educational activities are scheduled.	-

Comment	<p>Research projects promote the conservation of water resources at local and regional levels.  Examples: 1. Sustainable nanotechnology based on solar electrocatalysis as an effective response to water circularity. 2. Assessment of microplastic content in wetlands in Albacete: a global problem with local implications. 3. Strategies for decontamination of channels affected by mining (assessment of metal transfer in the hydrographic network). 4. SolWat system for treatment plants: Advancing in the development of technology. 5. Nature-based solutions to emerging pollutants: Protecting waters for the Ecological Transition. (See evidence, research project report document/SDG 6). Educational programs open to society in general. The University of Jaén carries out an information campaign on its dissemination screens and social networks, with information on wetlands and their benefits.</p>

Comment	<p>The University of Jaén actively promotes the conscious use of water on campus. An example of its effectiveness can be seen in the evidence data table, comparing the results of water consumption data in 2023 with those of the previous year 2022. (See evidence). The Environmental Sustainability Policy Statement of the University of Jaén assumes the commitment, among others, to "Promote the saving of natural resources, raw materials and energy, rationalizing consumption through the adoption of the necessary measures" (see metric 6.4.1). In the evidence you can see the control of water consumption in the buildings and infrastructures of the UJA, the reuse of grey water, alternative sources of water (rainwater), the control of water discharged through the sewage network, the metrics of the last exercise on water consumption at the University of Jaén and the reports on water consumption in 2023 and in previous years (see metric 6.4.2).</p>

Comment	<p>The Environmental Sustainability Policy Statement of the University of Jaén assumes the commitment, among others, to "Raise awareness, inform and train the entire university community to ensure that the guidelines set out in the environmental policy are observed, promoting their active participation in environmental management and in improving the quality of the university environment". In the evidence you can see an example of how the University of Jaén actively promotes the conscious use of water in the community at large: Celebration of the 39th National Irrigation Congress, which addresses the problem of water use (held in Úbeda – Jaén- on October 18, 19 and 20, 2023).</p>

Comment	<p>The policy has been updated in the Environmental Sustainability Master Plan of the University of Jaén 2021-2023. It develops strategic objective no. 4 "Consider environmental criteria in the planning and management of infrastructures". To implement this policy, the Regulation of Thermal Installations in Buildings and the Technical Building Code were applied (Energy efficiency and safety that thermal installations in buildings must comply with to satisfy the demand for well-being and hygiene of people, during their design and sizing, execution, maintenance and use). Also, Directive (EU) 2018/844 of the European Parliament and of the Council, of May 30, 2018, regarding energy efficiency. (Evidence where you can see the links to the applied standards).</p>

Comment	The University applies the Master Plan for Energy Savings and Efficiency of the University of Jaén 2022-2024 (see in metric 7.2.4. the 11 actions related to the objective AYE3: Improve the energy efficiency of the UJA in the medium and long term, pages 6 and 7). The University has certified the energy efficiency of all the University buildings. The University has updated the energy efficiency certificate of all its buildings (see clairvoyance). The energy efficiency improvement plans are included in the issuance of official certifications. As a first evidence, the certification dates and the date on which their renewal is necessary can be compared. All energy certificates include measures to improve energy efficiency and reduce CO2 emissions.

Comment	<p>The University of Jaén applies the procedure of "CO2 emission factors and coefficients of transition to primary energy from different sources of final energy consumed in the building sector in Spain" of the Institute for Energy Diversification and Saving (IDAE). The University of Jaén develops projects that impact on the reduction of carbon emissions. You can see in detail on the Energy Efficiency and Sustainability (ODS) website Projects to improve energy efficiency and sustainability of infrastructures (see evidence). The following projects stand out for their greatest impact on the reduction of carbon emissions: the project to install photovoltaic solar energy production at the University of Jaén; the Project to improve the management of the Green Infrastructure developed through the Tree Management Plan (see respective links in the evidence).</p>

Comment	<p>The University of Jaén's Energy Savings and Efficiency Master Plan 2022-2024 includes three objectives and 23 actions: 1. Reduce the UJA's short-term energy consumption. 2. Achieve the involvement and collaboration of the university community in the UJA's energy savings and efficiency. 3. Improve the UJA's energy efficiency in the medium and long term (see evidence). In addition, the actions of previous plans continue to be maintained (see page 8 evidence). Annual reports are made on the energy consumption of the University of Jaén buildings to verify the effectiveness of the actions implemented (see <a href="https://www.ujaen.es/servicios/utecnica/sites/servicio_utecnica/files/uploads/node_seccion_de_micrositio/2024-06/Libro1%20web.pdf">https://www.ujaen.es/servicios/utecnica/sites/servicio_utecnica/files/uploads/node_seccion_de_micrositio/2024-06/Libro1%20web.pdf</a>). The University of Jaén is a member of REDEJA, the Andalusian Energy Agency. The aim of this agency is to promote a new energy culture based on savings, energy efficiency and renewable sources. The evidence is public (web pages).</p>

The following actions are carried out in the regulatory maintenance programmes: Ten-year energy audits, five-year LV audits, three-year AT audits. Scheduled inspections are carried out: Regulatory inspection of High Voltage installations; Regulatory maintenance of Thermal installations; Regulatory inspection of Low Voltage electrical installations (in the evidence you can see it in the links). Comment	The University of Jaén includes in its policy in the Environmental Sustainability Policy Declaration of the University of Jaén: Establish a management system to prevent, reduce and eliminate the environmental impact derived from its university activity. Promote the saving of natural resources, raw materials and energy, rationalizing consumption. This policy has been reviewed in the Environmental Sustainability Master Plan of the University of Jaén 2021-2023 (see evidence, page 4: Reduce the environmental impact caused by the UJA's own activities, minimizing the global carbon footprint). In application of this policy, the consumption of electrical energy from polluting sources is reduced through the production of clean energy in new buildings (Biomass, solar thermal and solar photovoltaic). Savings in the emission of approximately 1,283 tons of CO2 per year.

Comment	<p>The mechanisms that the University of Jaén applies to collaborate with the local community in the field of energy efficiency and clean energy are: 1. Through the implementation of research and consultancy contracts at a local level, e.g. "Analysis of the operation of a floating solar photovoltaic installation". 2. Applied research activity. For example: The UJA applies agrovoltaics in greenhouse crops with the GLASS project, to reduce agricultural consumption and produce clean energy in hot and dry climatic conditions (see evidence). 3. Educational resources for the community, for example: The University of Jaén leads the Network for the large-scale integration of Renewable Energies in electrical systems (RIBIERSE-CYTED), or the scientific-technical business event on bioenergy hosted at the UJA within the framework of the commemoration of the World Day against Climate Change.</p>	
Does your university as a body promote a public pledge toward 100% renewable energy (petitions, meetings, discussions, events) beyond the university?	Yes	-

Comment	<p>In addition to teaching the Master's Degree in Renewable Energies at the University of Jaén since the 2009/10 academic year, which professionally trains graduates to specialize in the analysis, evaluation and use of renewable resources in our environment, the UJA promotes its commitment to 100% renewable energy beyond the university, participating in programs, activities, courses, workshops, etc. One example is that the University of Jaén leads the Network for the Large-Scale Integration of Renewable Energies in Electrical Systems (RIBIERSE-CYTED), born under the auspices of the Ibero-American Program of Science and Technology for Development (CYTED) created by the governments of the Ibero-American countries to promote cooperation in science, technology and innovation for the harmonious development of Ibero-America. The Network is made up of 25 universities and more than 15 collaborating companies, with a total of more than 240 researchers.</p>

Comment	The University of Jaén collaborates with national policies (Agenda 2030) on energy-efficient technologies and clean energy. LOCAL: Production of photovoltaic energy with the company ENDESA (see metric 7.2.3). REGIONAL: Promotion of Andalusian capacities for the bioeconomy in the horticultural olive oil and algal biomass sector (Official body, Oleícola Institute). NATIONAL: Ministry Program: Study on solar and wind energy at a national level to determine the spatial distribution and number of solar plants and optimal wind farms to obtain an electrical system based on renewable energies in the future. GLOBAL: Horizon Europe (MSCA) project: 'The UJA leads the 'Olipfuel' project, which aims to generate biofuels from waste from the olive oil industry, through the use of hydrothermal and biotechnological processes. This project is funded by the European Marie Skłodowska-Curie (MSCA) program of Horizon Europe. (See evidence).

Comment	Staff remuneration is regulated by law or by sectoral collective agreements. It is established in the job descriptions, is included in the university budget and its liquidation, and is subject to legal audit. The remuneration is higher than the minimum interprofessional salary established by the Government of the Nation for 2023 (1,080 euros/month). It is also above the poverty risk threshold of 23,078 euros for households of two adults and two children. The average direct salary of the staff of the University of Jaén is approximately 50,000 euros. (See evidence of salary tables). It can be consulted in the Budget of the University of Jaén ( <a href="https://www.ujaen.es/gobierno/gerencia/sites-gobierno_gerencia/files/uploads/Presupuesto%202023.pdf">https://www.ujaen.es/gobierno/gerencia/sites-gobierno_gerencia/files/uploads/Presupuesto%202023.pdf</a> , page 283 and following).

Comment	<p>The III Master Plan for Equality and Integration of Sexual and Gender Diversity of the University of Jaén (2021-2023) includes a detailed study of the measurement of the gender pay gap between men and women by groups and in general. (See metric evidence 8.2.6, p. 8 et seq.). This Equality Plan establishes actions on which the impact of the equality policy is monitored annually. (See metric evidence 8.2.6o, p. 29 et seq.). Although by legal imperative there are no gender-based pay gaps with respect to the performance of a position or category, comparative measurements of pay gaps are made and published on the Transparency Portal (see evidence). The evidence is public (web pages).</p>

Comment	<p>The Statutes of the University of Jaén recognise the possibility of filing an administrative claim for actions based on labour law. The claim is addressed to the Rector and is processed in accordance with current legislation. The procedure, forms, work regulations and rights and salary scales (specific information about your remuneration) are included on the Human Resources Service website. The different links can be accessed within the evidence: "Regulations", "Authorisation and social security", "Forms and applications".</p>

Comment	<p>The University of Jaén applies the rights of representation of the Basic Statute of Public Employees (national legislation), the rights of collective bargaining, representation and participation in the determination of working conditions. The Statute of the University of Jaén expressly includes the right to negotiate working, economic, labour and professional conditions, through unitary representation bodies (Personnel Councils, Company Committees, Trade Union Sections) and the negotiating legitimacy of trade union representation (see evidence, articles 96 and 130). The evaluation document on compliance with the II Plan for Effective Equality between Women and Men of the University of Jaén includes the equality and non-discrimination policies.</p>

Comment	The University of Jaén, as a public institution, is subject to the legality of the selection processes that ensure the absence of discrimination and equal opportunities, based on the principles of merit and capacity and on the principles and procedures for exercising the right of access to public employment. The University of Jaén implements positive discrimination policies for people with disabilities by reserving places (7%) as established by the Basic Statute of Public Employees. We show an example of the last call for applications from the University of Jaén with reservations for people with disabilities (see evidence, point 1.1). Regarding positive discrimination policies for women, as indicated in metric 5.6.1, they are incorporated into the III Master Plan for Equality and Integration of Sexual and Gender Diversity at the University of Jaén (2021-2023).

Comment	I UNDER-REPRESENTATION OF STUDENTS. Programme to reserve places (access quotas) in university studies for students with disabilities (5%), over 45 years of age (2%). (See evidence). UNDER-REPRESENTATION IN EMPLOYMENT. The University of Jaén participates annually in the National Youth Guarantee System and in the Youth Employment Operational Programme 2014-2020, extended in 2021, 2022 and 2023, which involves the implementation of employment contracts in the technical and young research fields for unemployed university students. UNDER-REPRESENTATION OF PEOPLE WITH DISABILITIES IN EMPLOYMENT. The labour integration of people with disabilities is promoted through programmes to reserve places for those called for (at least 7%). Example, last call for applications from the University of Jaén with reservations for people with disabilities (see metric 10.6.1).

Comment	<p>The University of Jaén was a pioneer (since 2008) in implementing plans to guarantee accessible facilities and resources: Comprehensive Accessibility Plan and Infoaccessibility Plan. In its application, actions have been carried out that have guaranteed accessible spaces and buildings. The evidence of metric 10.6.6 includes the provision of accessible service in point 1). We have a specific Accessibility Unit to carry out actions on accessibility requirements of all websites and applications for mobile devices. It includes a complaints and suggestions channel and the procedure for action. The accessibility resources of spaces and buildings are included in the planning of normative and preventive maintenance (Accessibility Elements), see metric 7.2.5. See also the evidence that includes the commitment of the University of Jaén to make its websites accessible.</p>

Comment	<p>The University of Jaén, through the Unit for Support for Students with Disabilities, develops tutoring and support programs (see metric 10.6.7). A protocol for identifying needs is established and personalized through Curricular Adaptations by the Technical Commission for Support for Students with Disabilities (see metric evidence 10.6.7, p. 6). A MENTORING program is applied through the assignment of a Tutor in the Faculty for the support of students with disabilities (see metric evidence 10.6.7, p. 7). OTHER SPECIFIC SUPPORT: See metric evidence 10.6.7, point 4 Special library services, point 5 Personal support, point 6 Financial aid, and point 7 Promoting the employability of students and graduates. Results related to this metric can be seen in the management report for students with disabilities and/or Special Educational Needs (see evidence).</p>

Comment	<p>The Statutes of the University of Jaén establish the right of students to receive individualized assistance in exceptional situations and the areas of action for inclusion. The Services for students with disabilities document establishes in its introduction the scope of the policies and associated services for reasonable adjustments. The areas described in metric 10.6.9 include personal support and financial aid. Personal support includes the preparation of personalized reports that are made at the request of students with or without disabilities, but with specific educational needs. The reports contain suggestions for "reasonable adjustments" to compensate for difficulties and facilitate academic equality for students. The results reported with reasonable adjustments can be seen in the management report (see evidence, page 10).</p>

Comment	The University of Jaén establishes in its Ordinance the policy and the Procedure for the preventive management of conflicts linked to situations of moral harassment at work: 1. It declares that harassment at work in any of its forms is totally unacceptable and therefore cannot and should not be tolerated. 2. All employees will be guaranteed a work environment free of all types of harassment, whatever its form. 3. A work environment in which the dignity of the person is respected (see evidence, p. 3). This policy has been expanded by the III Master Plan for Equality and Integration of Sexual and Gender Diversity at the University of Jaén (2021-2023), which establishes the policies of equality and non-discrimination based on gender at the university, including any form of sexism or direct or indirect discrimination based on sex and the sensitivity and convictions of all people in the Community (see metric 5.6.1).

Comment	The University of Jaén Press has an electronic platform for the Corpus of Oral Literature, which offers free access to more than 5,000 audiovisual media on oral culture collected since 1975. This is a specific excellence project called 'Documentation, digital archival treatment and study of the lexicographic and musicological heritage of oral heritage in Eastern Andalusia', an electronic platform that collects samples such as literature, songs, stories, etc., as well as other records of linguistic, historical, social or ethnographic interest, both from the Hispanic sphere (Spain, Honduras, Mexico, Puerto Rico...) and from other countries such as Algeria, Italy or Romania. Another ongoing programme is the Seminar on Hispanic Lexicography with activities on the preparation of lexical corpora for the linguistic description and edition, analysis, dating and study of ancient texts.

Comment	In 2018, the University of Jaén, together with a Mobility Consultancy, carried out a Diagnosis of the Current Situation – Sustainable Mobility Plan 2019/2024. Following this analysis, the UJA has improved its application of sustainable mobility strategies: a more environmentally sustainable organisation and contributing to the formation of a citizenry that promotes the values of sustainable mobility. The new Sustainable Mobility Master Plan of the University of Jaén is currently being implemented, which aims to promote a mobility system among the university community that allows travel with minimal impact on the environment and the territory and establishes action objectives (see evidence, page 6 and following). This Plan establishes the indicators and goals that are evaluated annually (see evidence, page 23 and following).

Comment	<p>Royal Legislative Decree 5/2015, of 30 October, approving the revised text of the Basic Statute of Public Employees, establishes in its article 47 the working day of public officials, and in article 47 bis teleworking. The University of Jaén regulates the work schedule of the Administration and Services Personnel for the year 2023 by means of an agreement signed by Management and the workers' representatives (see evidence). On the other hand, the teleworking modality is included in the Instruction of the Management of the University of Jaén which establishes the provisional regulation of the provision of services of the Administration and Services Personnel in the remote work modality. Currently, work is being done together with the representative bodies on new regulations that regulate the remote work modality for UJA staff.</p>

Comment	When contracting outsourced services, clauses are established regarding sustainability, environmental protection and waste management criteria. As an example, see clause 9 in the evidence, related to the College Residence (pages 24 and 25). Another example could be that of the university cafeteria: procedure for the physical and liquid elimination of waste. There are many more examples of contracts in which special conditions are included regarding the use of reusable or recyclable containers in deliveries made to the University, as well as the obligation for suppliers to collect their waste and subsequent recycling: Framework Agreement for the supply of office supplies and the supply of consumables, technical specifications for contracts 2023/09, 2023/11, 2023/12.	
Do these policies extend to outsourced suppliers and the supply chain - (suppliers of equipment, stationary, building contracts)?	Yes	-

Comment	In the contracting of works, services and supplies, clauses are established that require compliance with sustainability and environmental protection criteria that expand waste management policies. As an example, file 2020/02 on the maintenance and conservation service for air conditioning and ACS production systems with sustainability and environmental protection criteria and supply of the necessary equipment is noted. It expressly states: Promote prevention in the generation of waste, the correct management of all waste generated in the activities and operations subject to the contract, including waste electrical and electronic equipment (WEEE) as well as waste packaging (see evidence, page 25).

Comment	The University of Jaén in its Environmental Sustainability Policy Statement indicates: Promote the reduction and valorisation (reuse, recycling and recovery) of waste generated by the university's activities. In the Environmental Sustainability Master Plan of the University of Jaén 2021-2023 (see evidence of metric 12.2.4, page 43, associated recycling indicators). The University of Jaén in its Environmental Sustainability Policy Statement indicates: Promote the reduction and valorisation (reuse, recycling and recovery) of waste generated by the university's activities. As an example of measurement, we facilitate the management of hazardous resources (see evidence) and measurement (see link in the evidence: "Evolution of Hazardous Waste Production 2004-2023).	
Amount of waste generated	84mt	12%
Amount of waste recycled	26mt	-48% 
Amount of waste sent to landfill	58mt	132%

Comment	<p>ANNUAL. The University of Jaén prepares the Commitment Report / Social Responsibility Report annually based on its adherence to the 10 Principles of the United Nations Global Compact and the impacts on the SDGs (see evidence). Likewise, the UJA publishes an activity report each year for each of the 17 SDGs (<a href="https://www.ujaen.es/servicios/spe/informes-de-actividad-2023-por-ods">https://www.ujaen.es/servicios/spe/informes-de-actividad-2023-por-ods</a>). On the other hand, the UJA annually reports sustainability data for the Greenmetric report on sustainable universities (see evidence for metric 17.2.3, link:  <a href="https://www.ujaen.es/servicios/spe/sites/servicio_spe/files/uploads/node_seccion_de_micrositio/2024-10/Resultado_ujaen_Greenmetric_2023.pdf">https://www.ujaen.es/servicios/spe/sites/servicio_spe/files/uploads/node_seccion_de_micrositio/2024-10/Resultado_ujaen_Greenmetric_2023.pdf</a>). The UJA also participates in the diagnosis carried out by the CRUE (Conference of Rectors of Spanish Universities) through a specific questionnaire (CRUE Sustainability Tool for Self-Diagnosis of the Environmental Sustainability of Spanish Universities).</p>

Comment	<p>The University of Jaén measures the amount of low-carbon energy used for all campuses. The evidence contains the website for the publication of environmental indicators, which includes carbon and other greenhouse gas emissions. The links in the evidence contain detailed data on measurements and trends of greenhouse gas emissions indicators by final energy consumption, CO2 emissions per worker and per user, as well as indicators for primary energy consumption, final energy and CO2 emissions. The evidence is public (web pages).</p>	
Total energy used	43.330GJ	-13%
Total energy used from low-carbon sources	17.806GJ	-20%

## Environmental education measures

Does your university as a body provide local education programmes or campaigns on climate change risks, impacts, mitigation, adaptation, impact reduction and early warning?	Yes	-

Comment	<p>The University of Jaén has a Green Classroom activities programme. This programme includes activities related to Environmental Volunteering, Environmental Awareness Activities in the Natura 2000 Network. The Focus course "Eco-garden. Environmental Volunteer II" is open to the community (see evidence, where you can see the dates of the training and volunteer sessions offered within the course). A campaign has also been carried out to publicise the collaborative work for the development of solutions to the challenge of climate change, within the framework of the European MOST project.</p>	
Does your university as a body have a university Climate Action plan, shared with local government and/or local community groups?	Yes	-

Comment	<p>The UJA develops projects to improve energy efficiency and sustainability with community and collaborative impacts. The photovoltaic energy production project with an energy company for the installation of photovoltaic solar energy production plants on the Jaén and Linares campuses stands out. This project began its activity in 2021, its objective is to reduce the emission of 700 tons of CO2 into the atmosphere per year, equivalent to the planting of more than 71,000 trees (see evidence), (see metric 7.2.6). The contract modality establishes that Endesa will be in charge of the operation, maintenance and exploitation of the infrastructure during the 15 years of the contract. Within the framework of the Sustainable Mobility Master Plan, projects are developed in collaboration with the Jaén City Council, the province and the Juntas of Andalusia, for example, promoting the use of bicycles, the "Hack the city" program. Other shared programs can be seen in metrics 7.4.1 and 7.4.2.</p>	
Does your university as a body participate in co-operative planning for climate change disasters, that may include the displacement of people both within a country and across borders, working with government?	local, regional	-

Comment	<p>LOCAL AND REGIONAL. The University of Jaén's Meteorological Station is part of the Network of meteorological stations in Andalusia for monitoring climate change measures (see evidence). The UJA leads the LifeWatch-INDALO project for the creation of stations that monitor climate change processes in Andalusia. The main avenue for collaboration is through externally funded research projects such as the one developed by the Andalusian Institute for Earth System Research (IISTA, University of Jaén, University of Granada and University of Córdoba). Another line of collaboration is through the Centre for Advanced Studies in Energy and the Environment (CEAEMA), focused on the strategic area of renewable energies, energy and its relationship with the environment.</p>

Comment	<p>The University of Jaén collaborates on climate risks through research activities. Local and regional example: 1. Olive tree for verified emission reduction generation. 2. The role of plant microbiota as a mediator of the impact of climate change on the coexistence of species. 3. Local entities and sustainable mobility. 4. Circular Engineering applied to obtaining sustainable materials from waste. Towards climate neutrality. 5. Quantifying the impact of Climate Change on the implementation and functionality of groundcovers in olive groves. (See the SDG13 research project document in the evidence). The UJA coordinates the SUSTAINOLIVE project, which aims to calculate the climate change mitigation potential of olive tree cultivation. It has been selected to participate in the United Nations Conference on Climate Change (COP27).</p>

Comment	<p>The UJA maintains open educational training programs in environmental education in collaboration with NGOs: Example: Specialization Diploma in "Development Cooperation with Sub-Saharan Africa" (3rd Edition academic year 2022-23). Collaborating NGO: Huerta de San Antonio de Úbeda Foundation. The university implements international cooperation projects with an impact on climate action (see evidence). Agroforestry actions to generate resilience to the effects of climate change in the eastern dry corridor of Guatemala. 2. Africa counts: comprehensive training, awareness-raising, research and service-learning program on development cooperation with Sub-Saharan Africa. 3. Use of biofertilizers and management of native botanical resources to improve productivity and use by rural communities in the Ngozi area (Burundi).</p>

Comment	The University of Jaén assumes the objectives of the Ministry for the Ecological Transition established in the National Integrated Energy and Climate Plan 2021-2030, and the objectives of the European Union and the 2030 Agenda (emissions neutrality in 2050 and a reduction target of 39.5% in 2030). The University of Jaén has revalidated its commitment in the Environmental Sustainability Master Plan of the University of Jaén. Reduce the environmental impact caused by the activities of the UJA, minimizing the global carbon footprint in the operation of the university institution. The University of Jaén monitors greenhouse gas emissions due to final energy consumption (CO2, SO2 and NOx per year due to energy consumption). It measures levels 1 and 2 of electricity and fuels (see metric 13.2.1). (See evidence).	
Achieve by	2030	0%
Comment	<p>The forecasts for achieving level 1 and 2 objectives are expected to be achieved in the period 2030 based on the photovoltaic production plan for a 700 t CO2 reduction, the sustainable mobility plan and the UJA Green Infrastructure Ecosystem Services Plan. (The SFV production reports for the University of Jaén's photovoltaic solar plants can be consulted on this page <a href="https://www.ujaen.es/servicios/utecnica/eficiencia-energetica-y-ods/produccion-fotovoltaica">https://www.ujaen.es/servicios/utecnica/eficiencia-energetica-y-ods/produccion-fotovoltaica</a>). Greenhouse gas emissions from final energy consumption (period 2016 to 2023). Annual CO2 emissions per m2 built (t CO2 eq/m2) value 2023: 0.0217; average for the period: 0.0216; year-on-year variation rate 2023: 40.39%; Annual CO2 emissions (t CO2 eq) in 2023: 4,503 (2023 data and evolution in metric evidence 13.4.1).</p>

Comment	In 2023: Visit to the Padul wetland; Eco-garden workshop "Seeds"; Eco-garden workshop "Biological control"; El Empedraíllo: Natural and ethnological heritage. Miranda del Rey (Santa Elena); Puerto de la Mata Trail. Torres and Cambil; XIV Green Week; Visit to Huerta de los Frailes; Interpretive route in nature; Tree planting day at the Linares Scientific Campus; Volunteer work camp in the Guadarrama National Park; etc. (See more information in Green Classroom Events, first evidence). Through research projects, the conservation of water resources is promoted at local and regional levels. Examples: 1. Decontamination strategies in the hydrographic network affected by mining: passive treatment of mine waters and evaluation of the transfer of metals to the hydrographic network. 2. SolWat system for wastewater treatment plants. (See evidence for metric 6.5.3, document relating to research projects/SDG 6).

Comment	FREE - DISSEMINATION TO COMMUNITIES. The University of Jaén promotes training and dissemination in the field of sustainable tourism through the following examples: 1. The Chair of Inland Tourism of the University of Jaén (created in 2019) aims to generate new models and tools for the sustainable planning of inland tourism. Example: News from the Chair of Inland Tourism of the UJA presenting in February 2023 the tourism results corresponding to the year 2022 (see evidence). 2. The Campus of International Excellence in Heritage, coordinated by the University of Jaén, has held a congress "Heritage as an emerging sector: sustainable heritage tourism in Andalusia". 3. The UJA has brought together 230 professionals and specialists from the sector at the II International Congress of Inland Tourism of Andalusia. PAYMENT. TEACHING PROGRAM. Master's Degree in Sustainable Planning and Management of Tourism.

Comment	<p>The University of Jaén promotes the events of World Wetlands Day with educational programs open to society in general. It has launched an information campaign on its dissemination screens and social networks, with information about wetlands, their benefits and in relation to this year's motto "Wetlands and water. Water, wetlands and life". Likewise, in the events organized on the occasion of the XII Green Week, a day is dedicated to water, under the slogans "Let's value water" and "Essential: Water, wetlands and life". Other examples of activities are the Conference "Water resources: river water and groundwater. Importance for sustainability and the SDGs" (09/28/2023) or the intervention of a UJA expert on the situation of internationally protected wetlands in Spain and the pioneering measures that the Spanish Government has adopted for the protection of the Mar Menor (May 12 and 13, 2023). Comment	<p>The University of Jaén does not currently have a specific policy to ensure that food on campus that comes from aquatic ecosystems is obtained sustainably. However, through research and development, the UJA tries to find innovative solutions that improve the sustainability of aquatic food production. In addition, the UJA promotes education and awareness about the importance of sustainability in fisheries and aquaculture, both among consumers and producers. An example are the R&amp;D&amp;I solutions offered to Industries:</p> <p>1. The research group "Ecology and Biodiversity of Aquatic Systems" (RNM-300) focuses its research on the study of aquatic ecosystems, both marine and continental, of natural and artificial origin (see evidence).</p>

Comment	<p>RESEARCH. The University of Jaén works to maintain the biodiversity of ecosystems. In the evidence, a document related to research projects, examples can be seen in SDGs 6, 13, 14 and 15: 1. The role of plant microbiota as a mediator of the impact of climate change on species coexistence. 2. Compatibility of sympatric deer in Mediterranean ecosystems: role of habitat selection, fitness traits and activity patterns. 3. Study of the nematofauna present in the environment of the Cancarix volcanic python (Hellín, Albacete) and its environmental implications. Other activities of the UJA are: 1. The leadership of the LifeWatch-INDALO project 'Scientific infrastructures for monitoring and adaptation to global change in Andalusia' 2. Researchers at the UJA warn of the need to take measures to address erosion problems in the Upper Guadalquivir in the face of the possibility of heavy rainfall.</p>

Comment	<p>R&amp;D solutions offered to industries: 1. The research group "Ecology and Biodiversity of Aquatic Systems" (RNM-300) focuses its research on the study of aquatic ecosystems, both marine and continental, of natural and artificial origin (see metric 14.3.2). 2. Service/Technology: Vulnerability analysis of aquifer systems: The ecological restoration of aquatic systems aims to achieve the recovery of ecosystems that have been degraded, thus contributing to their conservation (see evidence). Service/Technology: Nematological analysis of soils and continental waters (sediments) for environmental quality studies.</p>	

## Water sensitive waste disposal

Does your university as a body have water quality standards and guidelines for water discharges (to uphold water quality in order to protect ecosystems, wildlife, and human health and welfare, etc.)?	Yes	-

Comment	<p>The water supply at the University of Jaén comes exclusively from the municipal network. Additionally, in compliance with the regulations for the prevention and management of legionellosis, all water supply systems in the buildings have: 1. Mechanical filters according to UNE-EN 13443-1. 2. A system of check valves, according to UNE-EN 1717, which prevent water from returning due to loss of pressure or a decrease in the supplied flow rate and especially, when necessary, to avoid mixing water from different circuits, qualities or uses. 3. Periodic bacteriological analyses. The first evidence shows the planning and Maintained Systems for the Prevention and Control of Legionellosis at the UJA. The "Legionellosis Control and Prevention Program" can be seen in detail in the evidence of metric 6.3.2. Another mechanism to avoid accidents is the pressure equipment maintenance program (see evidence).</p>

Comment	<p>The University has an Environmental Sustainability Master Plan 2021-2023 that establishes the objectives and action plans (see objectives and actions in evidence on page 25 and the associated recycling indicators on page 43): Indicator 19: Reduction in the percentage of waste production Indicator 20: Increase in the percentage of reuse, recycling and separation of waste. Among the measures that have been applied: 1. The installation of filtered water fountains has been completed. 2. Single-use bottles have been eliminated at meetings and academic events at the University of Jaén. 3. All UJA staff will receive a single-use glass bottle. 4. Collaboration with external suppliers to reduce the use of plastic cups. 5. Awareness campaigns are carried out, for example: I IDEATON Andaluz Recapacila Universities (see metric 12.2.6).</p>

Comment	The University of Jaén has a plan for controlling water consumption in its buildings and infrastructure (see evidence in metric 6.5.4 and links to control systems). Examples of actions: 1. Control of water discharged through the sewage system. 2. Control of production processes that research can generate with wastewater discharges, for which a continuous thermal decontamination system for effluents (Biowaste) is applied. (See evidence, which shows the Installation Plan for the Biowaste System in Building A1 of the Campus). 3. Planning and implementation of regulatory and incentive maintenance that includes action plans and the scope of the different areas, ensuring control and reduction of physical, chemical or biological alterations that may affect the discharge of water (see metric 14.4.1).

Comment	<p>The University of Jaén supervises internal ecosystems by applying preventive and regulatory maintenance, for example: Programming for the prevention and control of Legionellosis (see metric 15.4.1). Maintenance of the hydraulic installation: External and internal connections and distributions. Meters. Cisterns and tanks. Pressure groups. Bilge pumps. AFCH fountains. Ornamental fountains. Sanitation. Toilets and changing rooms. Laboratories. (See evidence: the Preventive Maintenance Plan can be accessed in the linked document). Externally, through research projects on water resources, for example: 1. Decontamination strategies in the hydrographic network affected by mining. 2. SolWat system for wastewater treatment plants. 3. Nature-based solutions against Emerging Pollutants: Protecting waters for the Ecological Transition (see evidence of metric 6.5.3).</p>

Comment	COMMUNITY COLLABORATION. The University of Jaén is a member of the Jaén Norte Wastewater Irrigation Cooperative, which provides adequately treated wastewater for watering gardens, producing reports and analyses by implementing the disinfection system (see evidence for metric 6.4.2, where you can link to the reports). Promotion in celebration of World Water Day. Open educational resources: Participation and Awareness for Biodiversity Conservation (see metric 14.2.1). An example is the activity "Visit to the Padul wetland", on the occasion of the celebration of World Wetlands Day, whose motto in 2023 is "It's time for wetlands restoration" (see evidence).

Comment	The strategies are established in the objectives developed by the research groups of the University of Jaén. For example: Ecology and Biodiversity of Aquatic Systems (RNM-300). (See metric 14.5.3). Some examples of research lines are: Study of epicontinental aquatic systems; Aquatic ecotoxicology; Biodiversity of aquatic systems. On the other hand, another research group is "Analysis of Basins and Environmental Geology" (RNM-200). In the evidence, a document related to research projects, examples can be seen in SDGs 14 and 15 on the UJA strategy in research on basin management according to the specific diversity of the location of aquatic species: 1. Evolutionary, genomic and functional analysis of sex determinism and gonadal differentiation in amphibians. 2. Amphibian conservation strategies.

Comment	The policy to ensure the conservation, restoration and sustainable use of terrestrial ecosystems associated with the university is established in the UJA Urban Tree Management Plan, which includes the identification and cataloging of existing trees, their vegetative state and multi-year planning, to maintain the trees in good health and public safety conditions, as well as being a tool to reduce energy consumption in buildings, reducing the "heat island" effect and thus contributing to minimizing the carbon footprint. (The scope of the Plan and the attached documents can be seen in the evidence). Comment	<p>The University of Jaén is a member of the board of trustees of the Cazorla, Segura and Las Villas Mountains Natural Park. The University of Jaén has rehabilitated the Torre del Vinagre Forest House in the Cazorla, Segura and Las Villas Natural Park, which was ceded for use by the Regional Government of Andalusia. It will allow the University to have a headquarters for the development of training and research activities related to sustainability and the environment. Among the activities of the Aula Verde there is a line of action related to visits to Natural Spaces of the Natura 2000 Network and reforestation in Jaén (see metric 15.2.1). One area of collaboration is the scientific advisory contracts of the UJA with entities (see evidence, research contracts/SDG 15 documents).</p>

Comment	<p>The water supply at the University of Jaén comes mainly from the municipal network. In addition, in compliance with the regulations for the prevention and management of legionellosis, all the water supply systems in the buildings have: 1. A mechanical filter according to standard UNE-EN 13443-1. 2. A check valve system, according to standard UNE-EN 1717, to prevent water from returning due to loss of pressure or reduction in the flow rate supplied and, in particular, when necessary to avoid mixing water from different circuits, qualities or uses. 3. Periodic bacteriological analyses (see evidence). The UJA applies the biological decontamination process for wastewater produced in Zone P2 of building A1, Animal Production and Experimentation Centre (Biowaste system) (see evidence of metric 14.5.1 of the Biowaste System Installation Plan in Building A1 of the Campus).</p>

Comment	<p>The University of Jaén, in its Environmental Sustainability Policy Statement, established: Promote the reduction and recovery (reuse, recycling and valorisation) of waste generated by the university's activities. (See evidence). In application of this policy, measures have been adopted to reduce plastic waste: 1. The installation of filtered water fountains has been completed. 2. Single-use bottles have been eliminated from all meetings and academic events at the University of Jaén. 3. All UJA staff received a glass bottle for individual use. 4. Collaboration with external suppliers to reduce plastic cups. The policies have been reviewed and reinforced with the University of Jaén's Environmental Sustainability Master Plan 2021-2023. <h3>University governance measures</h3>		
Does your university as a body have elected representation on the university's highest governing body from:	students (both undergraduate and graduate), faculty, staff (non-faculty employees)	-
Evidence	Evidence url: <a href="https://www.ujaen.es/gobierno/secgen/sites/gobierno_secgen/files/uploads/normativas/volumen1/disposiciones_generales/A2.pdf">(https://www.ujaen.es/gobierno/secgen/sites/gobierno_secgen/files/uploads/normativas/volumen1/disposiciones_generales/A2.pdf)</a>	
Comment	The Statutes of the University of Jaén guarantee the participation of the three groups of people that make up the university community (Teaching and Research Staff, Students and Technical Management and Administration and Services Staff) in the governing and representative bodies through elections: Governing Council (highest governing body) and Senate (highest representative body). It is found in article 37 (p. 58) and article 44 (p. 53) of the Statute. (See in evidence). The current composition of the Governing Council, which is the highest governing body of the University, is as follows: Representation of students (4 members), representation of teaching staff (10 members), representation of non-teaching staff (2 members).	
Does your university as a body recognise an independent students' union?	union provides governance input to university, union provides support for students, union provides social activities	-

Comment	The Student Council (CEUJA) is the body elected by the students, for deliberation, consultation and representation of the students of the University. Among its functions, one of them is to coordinate and discuss the initiatives that emanate from the students of the University and act on their behalf before the governing bodies of the same. In addition, it is part of the delegated committees of the Governing Council. It can be consulted in article 123 (page 115) and in article 45 (page 116) of the Statutes. (See evidence of metric 16.2.1). Specific information about the Student Council can be consulted in the evidence and consult the different links for the activities promoted by the Student Council (activities, events and support) and the mechanisms for participation through contact forms. In addition, through the Student Associations, associationism, participation and the civic and solidarity spirit of the students are encouraged.	
Does your university as a body have written policies and procedures to identify local stakeholders external to the university and engage with them?	Yes	-

Comment	The Statutes of the University of Jaén establish the policy of collaboration between the university and society. See article 169, p. 139 (see evidence of metric 16.2.1). This policy of interaction with interest groups is included in the University Mission: As an example of the relationship, you can see the "Stakeholder Document" (see evidence). On page 2, you can see the graph and the description that identifies the following external stakeholders: SOCIETY / ENVIRONMENT (Society, Provincial Environment, University-Business Foundation, NGOs), EXTERNAL CLIENTS (Contractors of training, research, and transfer services; Employers; Prosumers). ALLIES / SUPPLIERS (Networks and Associations; Organizations with agreements; Alliances; Suppliers of works, goods, and services; Suppliers of outsourced service provision). REGULATORS / FINANCERS (Governments and Educational Administration, EHEA, Regulatory Agencies).

Comment	<p>The Governing Council of the University of Jaén has approved and published the Institutional Declaration of the University of Jaén of Zero Tolerance against Fraud. It has approved an Anti-Fraud Action Plan (see evidence). It has created an anti-fraud commission and a complaints channel and Ethical Codes of good governance and of teaching, non-teaching staff and students (they can be consulted in the links on the evidence website). The University of Jaén has renewed its commitment to the 10 Principles of the United Nations Global Compact in 2023. Principle No. 10 establishes the policies on "entities should work against corruption in all its forms, including extortion and bribery". Similarly, the University of Jaén has launched the Internal Whistleblower Channel (<a href="https://www.ujaen.es/gobierno/canalinternoinformante/sobre-el-canal-de-denuncias/uso-del-canal-interno-del-informante">https://www.ujaen.es/gobierno/canalinternoinformante/sobre-el-canal-de-denuncias/uso-del-canal-interno-del-informante</a>).</p>	-
